

Master Program in Geology, 2nd Semester Courses, Summer Semester 2019

Module Name

Course Name

Instructor

Payment deadline for this course (=registration) will be November 26th, 2018. The fee is for lodging and course material, and it is non-refundable as lodging must be paid in advance at the source. Course dates are March 8th to March 24th, 2019. The field days of both P4.0.1 and P3.0.2/P5.0.2 will take place at the same location (on consecutive days), immediately before the start of P1.2.

P1 *Geological Field Mapping & Exploration*

P1.2 Field Mapping & Exploration

Friedrich/Carena

For your planning purposes, **even though these courses are listed in the 2nd semester (Summer), they will take place in the Winter Semester (or at least require advance registration in WS)**. They will however still count as Summer Semester credits.

Courses listed under multiple modules get credit in one module only.

******The other course option for WP3.0.4 takes place is SoSe, and is taught by Prof. Einsiedl at the TUM (Tracer Hydrogeology). Because it usually is a block course in March-April, you must check the online TUM catalog or contact Prof. Einsiedl well ahead of time to find out dates and registration deadline. Both these courses are from TUM and require online registration in the TUM system as well.

WP5	WP5.0.2 Polarization Microscopy	Kunzmann/Heuss-Aßbichler
WP2, WP4	WP2.0.2 / WP4.0.2 Global Geochemical Cycles	Meier
WP4	WP4.0.12 Geomicrobiology	Orsi
WP3	WP3.0.4 Risk Analysis: Alpine Hazards**	Krautblatter

This course is actually one or more field trips, held by different instructors. Info about each trip will be posted at some point in the Fall/Winter of 2019, usually by each instructor involved (class announcements, bulletin boards, etc.). Please be alert, so that you do not miss any deadlines to sign up. One or more trips may happen even before the end of the Winter Semester. You may take **only one** of these trips for credit as "Quantitative Geological Mapping 2".

P9, WP4	P9.0.3 / WP4.0.14 Quantitative Geological Mapping 2	multiple
---------	---	----------

Course

day&time

WP5.0.2	Block, see 3rd semester of Geomaterials & Geochemistry Master Program for schedule. Inquire with instructors asap if you think you may need to take this course at any time during your studies. It requires advance registration with instructor, regardless of when the course happens. In some years it may be offered twice a year, but not in the same language (one in German, the other in English) and level (beginner vs. advanced).
WP2.0.2, WP4.0.2	Tu 10-12
WP4	Block course Th/Fr, contact instructor for dates.
WP3.0.4	Requires advance registration in TUM online system; for schedule consult TUM online .
